

## **Wages Rate Data**

Average Daily Wage Rates for Agricultural and Non-agricultural Occupations - In pursuance of the recommendations of the Technical Working Group on rural retail prices set up by the NSSO in 1974, Labour Bureau has been compiling and maintaining average daily wage rate data in respect of agricultural and non-agricultural occupations based on the data collected by the Field Operation Division of National Sample Survey Office (NSSO) from a fixed set of 600 sample villages spread over 66 NSS regions in 20 states. Though these wage rate data have been collected since 1986-87, their regular compilation and dissemination started w.e.f April, 1998.

The average daily wage rate data was collected for eleven agricultural and seven non-agricultural occupations till October, 2013. However, following the recommendations of the Working Group constituted by the CSO on advice of the National Statistical Commission (NSC), wage rate data is now being collected for 25 occupations (12 agricultural and 13 non-agricultural).

The daily wage rate data received from the field are first normalized for eight working hours a day. The simple arithmetic average of these normalized daily wage rates is worked out for each of the 20 states. The average wage rates at all-India level are derived by dividing the sum total of wages of all the 20 states by the number of quotations. These averages are restricted only to those occupations where the number of quotations is five or more in order to avoid the apparent inconsistency in wages paid to different categories of workers on account of differences in number of quotations. The month-wise average daily wage rates are thus worked out at State level and also at all-India level are released regularly to the users through various sources.

State-wise and all-India average daily wage rates by occupation and sex for the month of February, 2018 have been presented in Table-1 for agricultural occupations and Table-2 for non-agricultural occupations.

Table-1: Average Daily Wage Rates for Agricultural Occupations in Rural India during February, 2018 (By States and Sex).

- = Indicates that the particular category of workers, i.e. men/women/children were not engaged in that operation either because of their non-availability; or the activity connected with the occupation was not undertaken in the State; or the activity was out of season in the State, etc.

@ = Number of quotations are less than five.

Note: The average daily wage rates at all-India level are derived by dividing the sum total of wages by number of quotations of all the states taken together.
