PREFACE

“Wage Rates in Rural India” is an annual publication being brought out regularly since 1995-96 by the Labour Bureau. The present edition of the publication, 5th in the series, contains statistics relating to daily wage rates in respect of 18 agricultural and non-agricultural occupations for the agricultural year 2001-02. This data is being collected every month from a fixed set of 600 sample villages spread over 66 NSS regions of 20 States along with rural retail prices utilised in the compilation of consumer price index numbers for agricultural and rural labourers.

These wage rate statistics, apart from being utilised for fixation and revision of support/procurement prices of agricultural produce, are also used for studies relating to enforcement of minimum wages, calculation of State Domestic Product/National Income and drawing up and implementation of wage policy. These wage rates are compiled and released every month and also published in our monthly publication “Indian Labour Journal” since April, 1998.

I place on record my appreciation for sincere and commendable efforts put in by the officers and staff of Wage Rate Unit (Annexure-II) of the Labour Bureau in bringing out this publication.

Suggestions for improvement in the quality and content of this publication are welcome.

METHODOLOGY FOR COMPILATION OF WAGE RATE DATA

INTRODUCTION

About two-third of the total labour force in the country lives in rural areas. This segment of the society, unlike their counterparts in the organised sector of industries, does not enjoy the benefits of most of the labour enactments and the employer-employee relationships. Rural Labour Enquiries conducted by the Labour Bureau at regular intervals on a quinquennial basis are the only source of information on socio-economic conditions of Rural Labourers. The Consumer Price Index Numbers for Agricultural and Rural Labourers provide data for the revision and fixation of minimum wages. Due to the complexities in the rural wage structure, at present we do not have reliable wage rate data for rural workers.

In order to fill-up this vital gap, the Technical Working Group on Rural Retail Prices, set up by the NSSO, in its recommendations (in July, 1976) to revise/update the series of Consumer Price Index Numbers for Agricultural Labourers suggested to collect the wage data for rural workers on a continuous basis. Since prices and wages are related to each other, the Group recommended to collect wage rate data and rural retail prices from the same set of sample villages. This data was also found useful in the calculation of State/National Income and in studies on cost of cultivation of crops. In pursuance of these recommendations of the Group, the wage rate data on eleven agricultural and seven non-agricultural occupations are being collected every month w. e. f. 1986-87 along with rural retail prices, as a part of the scheme of Rural Labour Enquiry, from 600 sample villages spread over 66 N.S.S. regions of 20 states.

Owing to some problems with regard to the veracity of data with reference to the purpose for which it was being collected, the compilation of wage rate data was deferred for some time. During the year 1995, the Governing Council of the National Sample Survey Organisation sorted out the problem and recommended that wage rate data should continue to be collected and published every month. Consequently, the Labour Bureau took up the job of compilation of this data since the agricultural year 1995-96.

These data are now being compiled and published regularly in our monthly publication, the **Indian Labour Journal**, w.e.f. April, 1998 with the following objectives:

- i) meeting the requirements of complementary data for enforcement of minimum wages fixed/revised by the Government;
- ii) meeting the requirements of drawing up and implementation of Wage Policy, and
- iii) meeting the requirements in estimation of State Domestic Product/National Income and Cost of Cultivation studies.

The daily wage rate data for the following selected occupations are being collected every month.

Agricultural Occupations

- 1 Ploughing
- 2 Sowing
- 3 Weeding
4. Transplanting
5. Harvesting
6. Winnowing
7. Threshing
8. Picking
- 9 Herdsman
10. Well Digging
11. Cane Crushing

Non-agricultural Occupations

1. Carpenter
2. Blacksmith
3. Cobbler
4. Mason
5. Tractor Driver
6. Sweeper
7. Unskilled Labour (un-specified)

SAMPLE SIZE

The wage rates are collected from the same set of sample villages from where rural retail prices are collected every month for compilation of the CPI numbers for Agricultural/Rural Labourers (Base 1986-87=100). Therefore, the state-wise sample sizes were decided by the Working Group keeping in view the need for constructing the CPI numbers for Agricultural/Rural Labourers. A number of regions were formed within a State by grouping contiguous districts similar in agro-climatic conditions and cropping pattern. Within each region, strata were formed by treating each district as a separate stratum. However, smaller districts were merged, according to similarity of agro-climatic conditions and cropping pattern, to keep the number of the strata within a manageable limit. Generally, a stratum consisted of three villages and multiple of three in some cases. In each stratum, three or six villages were selected circular systematically to form three batches of villages. Sample size so determined was adopted for collection of wage rate data also by appending a separate block in Schedule 3.01 (R) designed for collection of rural retail prices

for the compilation of the Consumer Price Index Numbers for Agricultural/Rural Labourers. The state-wise distribution of the number of regions, strata and sample villages is given below:

Sl.No.	State	Region	Strata	Sample village
1	Andhra Pradesh	4	18	54
2	Assam	3	8	27
3	Bihar	3	13	39
4	Gujarat	5	10	30
5	Haryana	2	4	12
6	Himachal Pradesh	1	3	9
7	Jammu & Kashmir	3	5	21
8	Karnataka	4	11	36
9	Kerala	2	5	21
10	Madhya Pradesh	7	23	69

13	Meghalaya	1	2	9
14	Orissa	3	8	33
15	Punjab	2	5	15
16	Rajasthan	4	7	21
17	Tamil Nadu	4	11	33
18	Tripura	1	3	9
19	Uttar Pradesh	5	20	60
20	West Bengal	4	11	39
Total		66	187	600

COLLECTION OF DATA

The Field Operations Division of the National Sample Survey Organisation is entrusted with the work of data collection. The wage rate data are being collected every month along with rural retail prices from 600 sample villages spread over 66 NSS regions of 20 states by canvassing Schedule 3.01(R). Collection of data from these sample villages is staggered over the four weeks of a month with one-fourth of them being covered every week. The days of canvassing of Schedule 3.01(R) are fixed. The village functionaries like the Panchayat Secretary, Progress Assistant, Patwari and other Village or Block Officials are the primary informants for collection of data on wage rates. The data on normal working hours and the prevailing wage rates in cash and kind for the reported working hours are collected sex-wise for each of the 18 selected occupations. Wages in kind include food grains, cooked meal, fuel, tea, cigarettes, bidi, etc. Wages in kind is evaluated at local retail prices.

COMPILATION OF AVERAGE WAGE RATES

The data is first posted separately for agricultural and non- agricultural occupations for each state every month. Wage rates are sometimes reported for a duration which is less/more than the normal working hours. In such cases, they are first normalised for eight hours working day. Thereafter, data is thoroughly scrutinised and discrepant points are referred back to the field for clarification. In the next stage, the simple arithmetic average of these normalised daily wage rates is worked out for each state as follows:

$$\frac{1}{n} \sum_{i=1}^n W_i$$

Where 'W' represents wage and 'n' number of villages in the State.

Similarly, the average wage rates at all-India level are derived by dividing the sum total of wages of all the 20 States by the number of quotations. State-wise averages have been restricted only to those occupations where the number of quotations are five or more in order to avoid inconsistency in wages paid to different categories of workers on account of difference in number of quotations. However, for working out all-India averages all those neglected quotations have been taken into account to arrive at total number of quotations at all-India level. At all-India level also, the number of quotations for working out occupation-wise averages have been restricted to five or more.

This booklet provides wage rate data for 20 states and all-India in respect of 11 agricultural and 7 non-agricultural occupations for 12 months of the agricultural year 2001-02. The dash (-) in the tables against various occupations indicate that no wage rate was reported during the reference month for various reasons, such as:

- i) the activity connected with the occupation was not undertaken in the state; or
- ii) the activity was out of season in the state; or
- iii) the particular category of workers (i.e. Men/Women/Children) were not engaged in that operation.

EXECUTIVE SUMMARY

As a part of the Rural Labour Enquiry, the wage rate data in respect of 11 agricultural and 7 non-agricultural occupations are being collected every month along with rural retail prices in Schedule 3.01(R) from a fixed set of 600 sample villages spread over 66 N.S.S. regions of 20 States (Andhra Pradesh, Assam, Bihar, Gujarat, Haryana, Himachal Pradesh, Jammu & Kashmir, Karnataka, Kerala, Madhya Pradesh, Meghalaya, Maharashtra, Manipur, Orissa, Punjab, Rajasthan, Tamil Nadu, Tripura, Uttar Pradesh and West Bengal). These data are being compiled and published w.e.f. the agricultural year 1995-96. In this booklet, occupation and sex-wise, daily wage rates prevalent in 20 states during the agricultural year 2001-02 have been presented. The main findings of the data are summarised below.

a) Agricultural occupations:

1. During the year 2001-02, all-India annual average daily wage rates in different agricultural occupations varied widely from Rs.39.11 for male herds-keepers to Rs.82.35 for male labour engaged in 'well-digging'; from Rs.28.71 for female herds-keepers to Rs.46.51 for the female engaged in 'transplanting' activities; and from Rs.25.29 for child herds-keepers to Rs.33.04 for those employed in 'cane crushing'.

2. Amongst agricultural occupations, 'well digging' was observed to be the highest paid activity for men followed by 'ploughing' and 'sowing' occupations. At all-India level, the average daily wage rates for 'well digging' during the year 2001-02 varied from Rs.85.73 in September, 2001 to Rs.80.40 in June, 2002. It was noticed that the average wage rates for men in 'well digging' was the highest in the state of Kerala and the lowest in the state of Madhya Pradesh throughout the year.

3. For women, 'transplanting' occupation fetched maximum wages followed by 'harvesting' and 'threshing' occupations. The all-India average daily wage rates for women in 'transplanting' occupation ranged between Rs.43.15 in August, 2001 to Rs.49.62 in June, 2002.

4. Children got highest wages in 'cane crushing' occupation in the range of Rs.30.40 in April, 2002 to Rs.34.17 in January and February, 2002 followed by 'weeding' and 'sowing' occupations.

5. 'Herdsman' occupation was the least remunerative occupation for all the three categories of workers as the annual average daily wage rates for men, women and children were as low as Rs.39.11, Rs.28.71 and Rs.25.29 respectively during the year 2001-02.

b) Non-agricultural occupations:

6. The all-India annual average daily wage rates in non- agricultural occupations also varied widely from Rs.47.06 for 'sweeper' to Rs.112.31 for 'mason' for men; from Rs.41.51 for 'unskilled female labour' to Rs.48.11 for female 'sweepers'; and Rs.27.39 for 'unskilled Child labour' to Rs.42.33 for a child 'carpenter'.

7. Amongst non-agricultural occupations, 'masonry' was observed to be the highest paid occupation for men followed by 'carpentry' and 'blacksmithy' occupations. During the year 2001-02, the all-India average daily wages for male 'masons' ranged between Rs.110.30 in July, 2001 to Rs.114.20 in June, 2002.

8. 'Sweeping' was the highest paid occupation for women as their all-India average daily wages in that occupation varied from Rs.46.35 in September, 2001 to Rs.51.84 in June, 2002.

9. Children got highest wages of Rs.42.33 in 'carpentry' during the year under reference.

10. 'Unskilled Women and Child Labour' was observed to be the lowest paid category of labour during the year 2001-02 as their all-India annual average daily wage rates were as low as Rs.41.51 and Rs.27.39 respectively. For men, 'sweeping' was observed to be the lowest paid occupation with an average daily wage rate of Rs.47.06.

11. None of the female workers were found employed either as 'carpenters', 'blacksmiths', 'cobblers' or as 'tractor drivers' as no wage rate was reported for these occupations during the year.
