PAYMENT OF WAGES ACT -1936

I. INTRODUCTION

1.1 With the growth of Industries in India, problems relating to payment of wages to persons employed in industry started emerging. The industrial units were not making payment of wages to their workers at regular intervals and wages were not uniform. The industrial workers were forced to raise their heads against their exploitation. The Govt. of India addressed the local government in 1926 to ascertain the position with regard to the delays occurred in the payment of wages to persons employed in industry and practice of imposing fines on them. The investigation reveals the existence of abuses in both directions and the material collected was placed before the Royal Commission of Labour appointed in 1929. On the basis of the report of the commission the Payment of Wages Bill, 1935 was introduced in the legislative assembly in February, 1935 and received the approval in 1936. It came to be known as Payment of Wages Act, 1936.

1.2 Objective

The Payment of Wages Act, 1936 is beneficial legislation to regulate the payment of wages to certain classes of persons employed in industries. The main purpose of the Act is to ensure regular and prompt payment of wages and to prevent the exploitation of wage earners by prohibiting arbitrary fines and deductions from his wages. It provides for responsibility of employers of payment of wages, fixation of wage period, time and mode of payment, deduction which may be made and other connected matters.

1.3 Scope of Coverage of the Act

The Payment of Wages Act is applicable throughout India. It applies to the payment of wages to persons employed in any factories, otherwise than in a factory, upon any railway by a railway administration or either directly or through a sub-contractor, by a person fulfilling a contract with a railway administration [and to persons employed in any industrial or other establishment specified in sub-clauses (a) to (g) of clause (ii) of section 2]. Prior to 1st April 1958 employees earning less than Rs. 200 per month were only covered under the Payment of Wages Act, 1936. With the enforcement of the payment of Wages (Amendment) Act, 1957 w.e.f. 1st April, 1958, the scope of the Act was extended to cover persons earning Rs. 200 or more but less than Rs. 400 p.m. The Payment of Wages (Amendment) Act, 1976 extended application of the Act to persons earning less than Rs. 1000 p.m. In 1982, the application of the Act was further extended to cover persons earning less than Rs. 1600 p.m. Further, it was extended to Rs. 6500 w.e.f. 9.11.05. Then Further it has been extended to Rs. 10000/- p.m.w.e.f. 8th August, 2007, Rs. 18000/- w.e.f. 11th September, 2012 and to Rs. 24000/- w.e.f. 29th August ,2017. Till 1963, the Payment of wages Act was applicable to all the factories as defined under Section 2(m) of the Factories Act, 1948 i.e. factories which employ 10 or more workers using power and 20 or more workers not using power. In 1964, the coverage of the Act was also extended to the factories under Section 85 of the Factories Act, 1948. However, due to incomplete response, data in respect of factories under Section 85 have not been included in the

statistics of earnings till 1982. The annual returns are being received as per National Industrial Classification, 2008.

III. STATISTICS COLLECTED UNDER THE ACT

3.1 All establishments covered under the Act are required to furnish to the concerned authority (Central or State) an annual return in prescribed form as per the rules framed under the Payment of Wages Act., 1936. The information submitted by units to State/U.T. Authorities contains identification particulars, number of mandays worked during the year, total wages paid including deductions, number of cases involving deduction and amount realized etc. In the primary returns, figures relating to gross wages are collected with a break-up of the figures:

1. Basic wages
2. Cash allowances which include production or incentive bonus, efficiency bonus, dearness and other allowances.
3. Money value of concessions.
4. Annual or profit sharing bonus and
5. Arrears

It is likely that uniform practice based on proper interpretation is not being followed by all the reporting units in furnishing data for the various components particularly in regard to money value of concessions. The units are required to submit the returns by the 15th February of succeeding year.

The State Governments / Union territories submit consolidated statement on working of the payment of Wages Act, 1936 to Labour Bureau for each calendar year by a specified date i.e. 25th August of succeeding year. The consolidated returns of the State / Union Territory Authorities contain industry –wise information on the following items:

- (a) Number of factories covered under the act and submitting returns;
- (b) Average daily employment during the year;
- (c) Total mandays worked during the year and
- (d) Total gross wage bill (before deductions) further broken up into components like basic wages, cash allowance, bonus, arrears and money value of concessions, etc.

The consolidated returns received from the State / Union Territory authorities contain requisite data in respect of only those factories which submit returns. Some of the factories coming within the purview of the Payment of Wages Act do not submit the primary returns to the State Authorities although it is a statutory obligation on their part to submit such returns. Also varying number of factories submitting returns from year to year affects the comparability not only of figures of total earnings but also those of per capita annual earnings.

3.2 Computation of Annual / Daily Earnings

The figures of average daily employment in an industry are derived by dividing total attendance during the year by the number of working days reported by the individual establishments belonging to that industry. Total gross wage bill for an industry when divided by the corresponding average daily employment yield the figure of per capita annual earnings. Thus, the figures of per capita annual earnings derived in this manner are subject to variation on account of variation in the number of working days. It is for this reason that the per capita

annual earnings have been given only for perennial industries where the variation in the number of working days during the year is not likely to be appreciable.

The per capita daily earnings are derived by dividing the total gross wages bill for a year by the corresponding figures of total mandays worked in that year. The per capita daily earnings are compiled for all industries i.e. seasonal as well as perennial. The data generated under the Payment of Wages Act, 1936 namely:

1. Per capita daily earnings and
2. Per capita annual earnings

Cross – Check of the Consolidated Return and General consistency

Before sending the consolidated Statement in Form A to the Labour Bureau, the following points should be checked up that

1. the figures for the class of Industries for each column should add up to those for the corresponding Group of Industries. The figures for the Groups should add up to those corresponding to Division of Industries. Similarly the figures for Division of Industries should add up to those for the corresponding Section of Industries and the figures for the Sections should add up to “All Industries Totals’. The Code Numbers of Class of Industries’ Group of Industries, Division of Industries and Sections of Industries should also be checked with the standard list (List of National Industrial Classification 2008).
2. For each Class of Industries, figures in column 14 (total wages) should be equal to the sum of the figures in column 15,16 and 17 (Basic wages, cash allowances and arrears). Further, figures in column 11 (gross wages) should be equal to the sum of the figures in column 12, 13 and 14 (bonus, money value of concession and total wages).
3. The following checks of consistency in the figures furnished in columns 4 (total number of days worked by reporting units). 7 (total number of mandays worked) and 10 (total) should be applied for each class of Industries, Group total, Division total, Section total and the Grand total –
 - (i) Whenever there is only one establishment submitting returns, the average daily employment should be equal to the figure obtained by dividing the total number of mandays worked by the total number of days worked by the establishment during the year (In other words, the number of mandays worked should be equal to the product of the number of days worked by the establishment and the average daily employment).
 - (ii) If the number of units submitting returns is more than one and not much variation is expected in the number of days worked from establishment to establishment (which will be true in the case of perennial industries), the product of mandays worked and the number of units submitting returns should be of the same order as the product of the number of days worked and the average daily number of persons employed.
 - (iii) It should also be checked that the average number of days worked by all the factories / establishments in any industry (as obtained by dividing the total number of days worked by the number of factories / establishments in the industry and also by dividing the total number of mandays worked by the figure of total average daily employment) do not exceed the number of days in the year (i.e. 365 or 366 in a leap year).

4. It should be checked that the per capita annual earnings (as obtained by dividing the total wages minus arrears paid by the total average daily employment for each class of Industries) should be less than Rs. 2,88,000. The per capita annual earnings obtained in this manner should not be too low, taking into account the average number of days worked by the factories / establishments in the industry.
5. In the same manner, the per capita daily earnings should be checked by dividing the total wages minus arrears paid, by the total mandays worked for each class of Industries. It should be seen that the per capita daily earnings thus obtained are not too low.
6. The per capita annual earnings and per capita daily earnings, thus, worked out of each class of Industries should then be compared with the corresponding figures for the previous year. In case any wide divergence is noticed, the plausible reasons for the same should, at first, be investigated and reported to the Labour Bureau.
7. It is recognized that in some exceptional cases figures which do not satisfy the tests suggested in paragraphs 3 to 5 above may, on examination, be found to be correct (e.g., payment of leave wages may push the per capita annual earnings on rare occasions beyond the margin of the wage-group to which such earnings relate). But since such cases are only exceptional, whenever any figure fails to satisfy the tests enumerated in the paragraphs mentioned above, it should be re-examined. If on such re-examination, the figures are found to be correct, suitable remarks along with the factors responsible should be made against the figures indicating that the figures have been verified and found to be correct.
8. After scrutiny and checking, the consolidated Returns (i.e. FORMS 'A' and 'B') should be sent to the Labour Bureau along with a copy of administrative Report by 25th August of the succeeding year.
