Wage Rates in Rural India

July, 1999 to June, 2000

**LABOUR BUREAU
MINISTRY OF LABOUR
GOVERNMENT OF INDIA
SHIMLA/CHANDIGARH
2001**

PREFACE

This is the third issue of the publication titled "Wage Rates in Rural India" being published by the Labour Bureau every year which contains daily wage rate statistics relating to 18 agricultural and non-agricultural occupations for the period July, 1999 to June, 2000. State-wise and All-India average wage rates have already been published on month to month basis in various issues of the **Indian Labour Journal**. The idea behind the publication of this booklet is to facilitate the access of information to users at one place. The data presented in the booklet are useful to policy makers for fixation and revision of wages in respect of employments in rural areas including agricultural labour. Besides, these are used for measuring cost of cultivation and fixation of support/procurement prices of agricultural crops. Data on daily wage rates are being collected every month in one of the blocks of schedule 3.01(R) meant for collection of rural retail prices for compilation of the Consumer Price Index Numbers for Rural/Agricultural labourers from 600 sample villages spread over 66 regions of 20 states.

Officers and Staff of wage rate unit (Annexure-II) of Labour Bureau deserve my appreciation for their sincere and commendable efforts in compiling and bringing out this useful publication.

The Bureau welcomes the suggestions for improvement in the quality and content of this publication.

METHODOLOGY FOR COMPILATION OF WAGE RATE DATA

INTRODUCTION

The Technical Working Group on Rural Retail Prices, set up by the NSSO in its recommendation to revise/up-date the series of Consumer Price Index No's. for Agricultural Labourers felt that the regular wage data for rural workers are of paramount importance for drawing up and implementation of wage policy. This data was also found useful in the estimation of state/national income and in studies on cost of cultivation of crops. In view of its vital importance, the Group suggested to collect "the wage rate of large set of occupations from a suitable selected sample of villages in various states so that a fairly representative picture of wage situation is available for the entire country on a continuous (monthly)-basis". It was felt that since prices and wages are related with each other it will be useful if the trend of these two characteristics are available on the basis of same coverage. In pursuance of these recommendations of the Group, the wage rate data on eighteen agricultural and non-agricultural occupations entailing manual work are being collected alongwith rural retail prices as a part of the scheme of rural labour enquiry from 600 sample villages spread over 66 N.S.S. regions in 20 states in the country since 1986-87. The selected occupations for which the daily wage rate data are being collected are as follows:

Agricultural Occupations

1. Ploughing
2. Sowing
3. Weeding
4. Transplanting
5. Harvesting
6. Winnowing
7. Threshing
8. Picking
9. Herdman
10. Well Digging
11. Cane Crushing

Non-agricultural Occupations

1. Carpenter
2. Blacksmith
3. Cobbler
4. Mason
5. Tractor Driver
6. Sweeper
7. Unskilled Labour

However, the compilation and publication of data were kept in abeyance due to some problems with regard to the veracity of data with reference to the purpose for which it was being collected. The Governing Council of the NSSO referred the matter to a small Group to look into various issues relating to the quality and authenticity of data collected on wage rates of 18 occupations. On the basis of the result of the comparative study undertaken by the Survey Design and Research Division (SDRD) of the NSSO on the wage rate data being collected by the Ministry of Agriculture and the NSSO, the Governing Council recommended that the data on wage rate should continue to be collected and published regularly. Accordingly, the data is being published regularly in our monthly publication, viz. the Indian Labour Journal. w.e.f. April, 1998 with the following objectives-

- i) meeting the requirements of complementary data for enforcement of Minimum Wages,
- ii) meeting the requirements of drawing up and implementation of Wage Policy, and
- iii) meeting the requirements in estimation of SDP/National Income and Cost of Cultivation studies.

SAMPLE DESIGN

State-wise sample sizes were decided by the Working Group keeping in view the need for the CPI numbers for Agricultural/Rural Labourers. Sample size for a state has been allocated to the NSS region in proportion to their rural population and in multiple of 3. Within each region strata have been formed by grouping contiguous districts as far as possible. The allocation to a stratum is generally three villages and multiple of three in some cases. In each stratum, three or six villages have been selected circular systematically to form three batches of villages. Sample size so determined has been adopted for collection of wage rate data also by appending a

separate block in Schedule 3.01 (R) designed for collecting rural retail prices for the purpose of compilation of CPI numbers. The state-wise distribution of regions, strata and sample villages is given below.

Sl.No.	State	Region	Strata	Sample village
1	Andhra Pradesh	4	18	54
2	Assam	3	8	27
3	Bihar	3	13	39
4	Gujarat	5	10	30
5	Haryana	2	4	12
6	Himachal Pradesh	1	3	9
7	Jammu & Kashmir	3	5	21

9	Kerala	2	5	21
10	Madhya Pradesh	7	23	69
11	Maharashtra	6	18	54
12	Manipur	2	2	9
13	Meghalaya	1	2	9
14	Orissa	3	8	33
15	Punjab	2	5	15
16	Rajasthan	4	7	21
17	Tamil Nadu	4	11	33
18	Tripura	1	3	9
19	Uttar Pradesh	5	20	60
20	West Bengal	4	11	39
Total		66	187	600

COLLECTION OF DATA

Wage rate data are collected every month from 600 representative sample villages spread over 66 NSS regions in 20 states by canvassing schedule 3.01(R). Collection of wage rates from these sample villages are staggered over the four weeks

of a month with one-fourth of the sample covered every week. The days of canvassing of schedule 3.01(R) are fixed. Village functionaries like panchayat secretary, progress assistant, patwari, other village or block officials are the primary source for collection of data on wage rates. The data on normal working hours and the wage rates in cash and kind for the reported working hours are collected sex-wise for each of the 18 selected occupations. The 'kind' part of the wages is evaluated at local retail prices.

COMPILATION OF AVERAGE WAGE RATES

The wage rates are first normalised for eight normal hours working day. In the next stage the simple arithmetic average of these normalised daily wage rates is worked out for each state as follows:

$$\frac{1}{n} \sum_{i=1}^n W_i$$

Where 'W' represents wage and 'n' number of villages in the State.

The average of daily wage rates at all-India level are derived by taking simple average of state figures.

This booklet provides wage rates for 20 states and all-India in respect of 18 agricultural and non-agricultural occupations for 12 months of the agricultural year 1999-2000 in Tables 1 to 12 (July, 1999 to June, 2000). The dash (-) in the tables against various occupations indicate that no wage rate was reported during the reference month for various reasons, such as:

- i) the activity connected with the occupation was not undertaken in the state, or
- ii) the activity was out of season in the state; or
- iii) the particular category of workers (i.e. Men/Women/Children) were not engaged in that operation.

EXECUTIVE SUMMARY

As a part of Rural Labour Enquiry, the daily wage rates in respect of eighteen agricultural and non agricultural occupations from a fixed set of 600 sample villages spread over 66 N.S.S.regions in 20 States (i.e. Andhra Pradesh, Assam, Bihar, Gujarat, Haryana, Himachal Pradesh, Jammu & Kashmir, Karnataka, Kerala, Madhya Pradesh, Meghalaya, Maharashtra, Manipur, Orissa, Punjab, Rajasthan, Tamil Nadu, Tripura, Uttar Pradesh and West Bengal) are being collected alongwith rural retail price data in Schedule 3.01(R) since 1986-87. The analysis of the data was withheld due to some technical problems which was ultimately sorted out by the Governing Council of NSSO in 1995. Consequently, the Labour Bureau took up the compilation of wage rate statistics since the agricultural year 1995-96. Occupation and sex-wise wage rates paid in different states for the year 1999-2000 have been presented in this booklet. Some of the highlights of the data presented in the booklet are given here as under:

The analysis of month-wise wage rate data for the agricultural year 1999-2000 (i.e. July,1999 to June,2000) reveals that amongst agricultural occupations, well-digging was observed to be the highest paid occupation for men during the major part of the year. At all-India level, the average wage rate for well-digging was found varied in the range of Rs.68.60 to Rs. 76.18 during the year 1999-2000. For women, sowing was the highest paid occupation as the daily wage rate ranged between Rs. 48.33 and Rs.52.85 Similarly, children got highest daily wage rate in winnowing occupation in the range of Rs. 27.67 to Rs. 41.34. On the other hand, the herdman was noticed to be the least paid occupation for men. The all-India average daily wage rate for herdman (man) ranged between Rs. 39.13 to Rs. 43.15 during the period under reference. Women also got least daily wage rates in herdman occupation. The average daily wage rate for women ranged from Rs. 27.37 to Rs. 34.41. Likewise, children received lowest daily wages in herdman occupation in the range of Rs.23.19 to Rs. 26.30

Amongst non-agricultural occupations, the mason was observed to be the highest paid occupation for men. At all- India level, the average daily wage rate for

mason ranged between Rs. 105.55 to Rs.110.10 during the year under report. For women, the unskilled labour was found to be the highest paid occupation with average daily wage rate in the range of Rs.43.37 to Rs. 46.11. Similarly, children got highest wages in the range of Rs.32.78 to Rs.46.11 in blacksmith occupation. On the other hand, the sweeper (man) got least wages in the range of Rs. 41.89 to Rs.45.55. For women, mason was observed to be the least paid occupation with wages in the range of Rs.36.44 to Rs.43.03. Likewise, the children got lowest daily wage rate in unskilled labour. The average daily wage rate ranged between Rs. 29.38 to Rs.34.60 in this occupation. None of the female workers was observed to be engaged in carpenter, cobbler and tractor driver activities throughout the year. As in the case of agricultural occupations, almost all the States depicted similar trend as was observed in the case of all-India.

The difference of wages among men, women and children is quite evident from the data. For instance, in ploughing occupation in July,1999, average daily wage rate for man at all-India level was Rs. 67.86 whereas it was Rs. 49.25 for woman and Rs. 32.50 for child. Similarly, unskilled labourers received Rs. 58.40 (man), Rs. 46.11 (woman) and Rs. 29.38 (child) as average daily wages during June,2000.

* स्पष्ट करें, कपास, जूट, चाय, इत्यादि/*Specify, cotton, jute, tea, etc.

(क०१०३०/P.T.O.)

टिप्पणी — 1. यदि कर्मचार जैसे बुध्दार, मोची, बर्तन इत्यादि पूरे दिन बोनक मजदूरी के आधार पर कोई कार्य में नहीं लगाए जाते हैं और ऐसे व्यक्ति किसी भी कार्य को अंशतः कार्य करते हैं जैसे बुध्दार एक कुदाली बनाता है और उसके बनाने के वैसे लेता है। ऐसी दशा में यह मान्य करने का प्रयत्न किया जाए कि इसने कुदाली बनाने में कितना समय लगाया है और उसके कितने वैसे लिए। इस प्रकार ये उसके पूरे दिन की मजदूरी अनुमानित की जा सकती है। इसी प्रकार ये दूसरों की मजदूरी भी अनुमानित की जा सकती है।

NOTE : — 1. If workers like blacksmith, cobblers, carpenter, etc. are not engaged on full day or daily wage basis the item of work undertaken by them on piece-rate basis, the hours spent and payment made for the same may be recorded for estimating normal hours of work as well as the daily wage rates.

2. यदि मजदूरी/वेतन प्रति दिन के हिसाब से नहीं दिए जाते हैं और इसका अनुमान मासिक आधार पर किया जाता हो इस प्रकार के प्रयोजन का विवरण कॉलम नं० 12 में पूर्ण टिप्पणी के साथ दिया जाए।

2. If wages/salaries are paid on non-daily i.e., monthly, etc. basis the actual wages/salaries so paid may be recorded along with suitable remarks in col. 12.

3. जिसमें कितने गए प्रयोजन का मूल्योनकन स्वाधीन कटकर नूत्यों के आधार पर किया जाए। जिस/जिनमें जिनका प्रयोजन किया गया है उक्त नाम कॉलम नं० 12 में लिखा दिया जाए।

3. Payments in kind are to be evaluated at local retail prices. The name of the item/items paid in kind may please be noted in col. 12
