**LABOUR BUREAU
MINISTRY OF LABOUR
GOVERNMENT OF INDIA
SHIMLA/CHANDIGARH**

1998

PREFACE

This publication titled "Wage Rates in Rural India" is the first of its kind being published by the Bureau. It contains monthly wage rate statistics relating to 18 agricultural and non-agricultural occupations in the country, for the period July '95 to June, '96. In future these statistics are intended to be brought out on monthly basis in our regular monthly journal, the **Indian Labour Journal**. The need for these statistics was felt by the Technical Working Group on Rural Retail Prices and, accordingly, the Governing council of the NSSO desired that alongwith the collection of monthly price data for the compilation of the Consumer Price Index Numbers, it would be useful if the data on 18 occupations is also collected from the same number of sample villages and published. This data on wage rates is being collected since 1986 on regular monthly basis.

The officers and the staff members of the Wage Rate Unit of Rural Labour Enquiry Division of the Bureau (Annexure-II) deserve my appreciation for this pioneering effort. It is hoped that the publication of wage rate data on regular basis will strengthen the statistical base relating to Labour issues in the country.

The suggestions of the users for the improvement in the form and content of the presentation of data will be highly appreciated.

SHIMLA

AVERAGE DAILY WAGE RATES IN RURAL INDIA

INTROUCTION:

Rural labour is one of the weakest segment of the country's labour force. It is so for variety of reasons-social, economic and political. Being poverty stricken and scattered, and unlike their counter-parts in the urban sector, they are not organised. The regular wage employment in the rural areas is an exception rather than the rule. Casual employment is the norm with seasonality as characteristic feature depending upon the agricultural operations. The information base about the working and living conditions of this segment of labour force is also very scanty. We know about their living conditions either through case studies or through occasional surveys. The Rural Labour Enquiry is one such source which throws up information about the various facets (such as wage earning, indebtedness, consumption expenditure and employment and unemployment) of rural labour on regular quinquennial basis . Thus on facets not covered in the enquiry, one has to rely on case studies which are not comprehensive. Even in regard to the facets covered in the R.L.E, the information about the intervening period has to be deduced by interpolation and extrapolation . One facet , relating to this class of labour on which regular data on comprehensive scale is available, is the monthly C.P.I. Numbers for agricultural labour (now rural labour also since 1996) which is utilized for fixation/revision of minimum wages for rural labour in different employments by the state governments.

The Technical Working Group on Rural Retail Prices, set up by the NSSO in its recommendation to revise/up date the series of C.P.I. felt that the regular wage data for rural workers are of paramount importance for drawing up and implementation of

wage policy. This data was also found useful in the estimation of state/national income and in studies on cost of cultivation of crops . In view of its vital importance the Group suggested to collect " the wage rate of large set of occupations from a suitable selected sample of villages in various states so that a fairly representative picture of wage situation is available for the entire country on a continuous (monthly) basis" . It was felt that since price and wages are mutually related it will be useful if the trend of these two characteristics are available on the basis of same coverage. In pursuance of these recommendations of the Group the wage rate data on eighteen agricultural and non-agricultural occupations entailing manual work is being collected alongwith rural retail prices as part of the scheme of rural labour enquiry from 600 villages spread over 20 states in the country since 1986-87 with the following objectives-

- i) meeting the requirements of complementary data for enforcement of Minimum Wages;
- ii) meeting the requirements of drawing up and implementation of wage policy; and
- iii) meeting the requirements in estimation of SDP/National Income and Cost of Cultivation studies.

The selected occupations for which the daily wage rate data is being collected are as follows :

Agricultural Occupations

1. Ploughing
2. Sowing
3. Weeding
4. Transplanting
5. Harvesting
6. Winnowing
7. Threshing
8. Picking
9. Herdman
10. Well Digging
11. Cane Crushing

Non-agricultural Occupations

1. Carpenter
2. Blacksmith
3. Cobbler
4. Mason
5. Tractor Driver
6. Sweeper
7. Unskilled Labour

Initially, there were some problems with regard to the veracity of data with reference to the purpose for which it was being collected. The Governing Council of the NSSO referred the matter to a small Group to look into various issues relating to the quality and authenticity of data collected on wage rates of 18 occupations. On the basis of the result of the comparative study undertaken by the Survey Design and Research Division (SDRD) of the NSSO on the wage rate data being collected by the Ministry of Agriculture and the NSSO, the Governing Council recommended that the data on wage rate should continue to be collected and be published regularly. Accordingly, the data is being published on annual basis, to start with, which will be brought out on regular monthly basis once the system stabilises.

THE SAMPLE DESIGN AND METHODOLOGY

The Labour Bureau is compiling the consumer Price Index Numbers for Rural/ Agricultural Labourers on the basis of retail prices being collected by the NSSO on behalf of Labour Bureau. Alongwith the retail prices, the wage rate data in various agricultural and non-agricultural occupations is also being collected in the schedule 3.01(R) (Annexure-I) as rural retail prices and wage rates are complementary to each other. Preliminary enquiries were conducted regarding collection of wage rate data from Panchayat/Revenue authorities in respect of the 600 sample villages spread over 20 states, 66 regions and 187 strata. The state wise distribution of regions, strata and sample villages is given at next page.

Sl. No.	State	Region	Strata	Sample Villages
1	Andhra Pradesh	4	18	54
2	Assam	3	8	27
3	Bihar	3	13	39
4	Gujarat	5	10	30
5	Haryana	2	4	12
6	Himachal Pradesh	1	3	9
7	Jammu & Kashmir	3	5	21
8	Karnataka	4	11	36
9	Kerala	2	5	21
10	Madhya Pradesh	7	23	69
11	Maharashtra	6	18	54
12	Manipur	2	2	9
13	Meghalaya	1	2	9
14	Orissa	3	8	33
15	Punjab	2	5	15
16	Rajasthan	4	7	21
17	Tamil Nadu	4	11	33
18	Tripura	1	3	9
19	Uttar Pradesh	5	20	60
20	West Bengal	4	11	39
Total		66	187	600

The state wise Sample Sizes were decided by the Working Group keeping in view the need for the CPI numbers for Agricultural/Rural Labourers. The sample size for a state has been allocated to the NSS region in proportion to their rural population and in multiple of 3. Within each region strata have been formed by grouping contiguous districts as far as possible. The allocation to a stratum is generally three villages and multiple of three in some cases. In each stratum, three or six villages have been selected circular systematically to form three batches of villages. The sample size so determined

has been adopted for collection of wage rate data also by appending a separate block in Schedule 3.01 (R) designed for collecting rural retail prices for the purpose of compilation of CPI numbers.

The data on daily wage rates and normal working hours for some 18 manual activities (agricultural and non-agricultural) are collected through the schedule to provide complementary data for enforcement of minimum wages, the formulation of wage policy, estimation of State Domestic product/ National Income and study of cost of cultivation etc. For collection of data on wages, village functionaries like panchayat secretary, progress assistant , patwari, other village or block official are the primary source. The 'kind' part of the wages is evaluated at local retail prices. These wage rates are collected once in a month in each of the 600 selected villages. The days of canvassing of Schedule 3.01 (R) is fixed. The data on normal working hours and the wage rates for the reported working hours are collected for each of the 18 selected occupations. The wage rates are first normalised for eight normal hours working day. In the next stage the simple arithmetic average of these normalised daily wage rates is worked out for each state as follows:

$$\frac{1}{n} \sum_{i=1}^n W_i$$

Where 'W' represents wage and 'n' number of villages in the State.

This booklet provides wage rates for 20 states and all India in respect of 18 agricultural and non-agricultural occupations for 12 months of the agricultural year 1995-96 in Tables 1 to 12 (July,1995 to June,1996). The blank spaces in the Tables against various occupations indicate that no wage rate was reported during the reference month for various reasons, such as:

- i). the activity connected with the occupation was not undertaken in the state; or
- ii). the activity was out of season in the state; or
- iii). the particular category of workers (i.e. Men/Women/Children) were not engaged in that operation.

*स्पष्ट कर : कपास, जूट, चाय इत्यादि/*Specify / cotton, jute, tea etc.

टिप्पणी :— 1. यदि कामकार जैसे सुहार, मोची, बढ़ई इत्यादि पूरे दिन वैयक्तिक मजदूरी के आधार पर कोई कार्य में नहीं लगाए जाते हों और ऐसे अधिक किसी भी कार्य को संबन्धः कार्य करते हों जैसे सुहार एक कुदासी बनाता है और उसके बनाने के वैसे लेता है। ऐसी दशा में यह मान्य करने का प्रत्यय लिया जाए कि इसने कुदासी बनाने में कितना समय लगाया है और उसके कितने में मिले। इस प्रकार से उसके पूरे दिन की मजदूरी अनुमानित की जा सकती है। इसी प्रकार से दूसरों की मजदूरी की अनुमानित की जा सकती है।

Note :— 1. If workers, like, blacksmith, cobblers, carpenter, etc are not engaged on full day or daily wage basis the item of work undertaken by them on piece-rate basis, the hours spent and payment made for the same may be recorded for estimating normal hours of work as well as the daily wage rates.

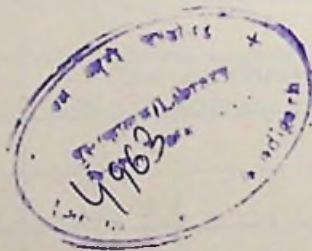

2. यदि मजदूरी/वेतन प्रति दिन के हिसाब से नहीं जाते हों और इसका अनुमान मासिक आधार पर किया जाता हो इस प्रकार के अनुमान का विवरण कॉलम सं० 11 में पूर्ण टिप्पणी के साथ दिया जाए।

2. If wages/salaries are paid on non-daily i.e., monthly, etc. basis the actual wages/salaries so paid may be recorded along with suitable remarks in col. 12.

3. जिसमें किए गए अनुमान का मूल्य/किस स्थानीय फुटकर मूल्यों के आधार पर किया जाए। जिस/जिन्हें जिसका अनुमान किया गया है उसका नाम कॉलम सं० 12 में लिख दिया जाए।

3. Payments in kind are to be evaluated at local retail prices. The name of the item/items paid in kind may please be noted in col.
